KRISH KUMAR UKANDE

Indore, Madhya Pradesh | 6269214702 | krishukande9@gmail.com | LinkedIn | GitHub

SUMMARY

B.Tech Information Technology student with hands-on full-stack development experience across the MERN stack and ASP.NET Core (C#), gained through personal projects. Experienced in building REST APIs, database-driven applications, JWT-based authentication, and secure payment gateway integrations. Seeking a Software/MERN Stack Developer Internship to apply and grow these skills in a production environment.

EDUCATION

Bachelor of Technology in Information Technology 2023 – 2027
Indore Institute of Science and Technology, RGPV University, Madhya Pradesh

PROJECTS

Pickleball Tournament Management System (DinkSync) | *MERN Stack* | Live Demo

- Developed a full-stack tournament management application using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT authentication, Admin/Viewer roles, and OTP verification.
- Built REST APIs for tournament, participant, and user management.
- Designed responsive React pages using Tailwind CSS.
- Built a live ScoreSheet with pickleball serving rules, server rotation, and receiver calculation.
- Architected to support 50–200 concurrent users per tournament, with MongoDB storage optimized for ~200 tournaments (~2MB/tournament) on free-tier infrastructure.

E-Commerce REST API with Payment Gateway Integration | *ASP.NET Core*, *C#*, *SQL Server*

- Built a full-stack e-commerce backend in ASP.NET Core (C#) using Repository and Unit of Work patterns, AutoMapper, and FluentValidation, with Entity Framework Core and SQL Server.
- Integrated Razorpay and Stripe payment gateways, implementing HMAC-SHA256 signature verification and server-side order-ownership checks to block unauthorized or unverified payment attempts.
- Implemented JWT authentication with refresh tokens and role-based authorization across all API endpoints.
- Designed a transactional checkout flow with inventory validation, coupon/discount logic, and automatic rollback on failure using EF Core transactions.
- Wrote unit tests (xUnit, Moq) covering payment verification, signature validation, and authorization edge cases.

Data Analyzer | *HTML*, *CSS*, *JavaScript* | GitHub

- Developed a web-based Data Analyzer using HTML, CSS, and JavaScript for CSV/Excel data analysis.
- Implemented data parsing, statistical analysis, and interactive visualizations using Chart.js, PapaParse, and XLSX.js.
- Added user authentication and dynamic dashboards for efficient data exploration.

TECHNICAL SKILLS

MERN Stack: MongoDB, Express.js, React.js, Node.js

Backend (Secondary): ASP.NET Core, C#, Entity Framework Core, SQL Server

Programming Languages: JavaScript, C#, Java, C, Python

Web Technologies: HTML5, CSS, React.js, Tailwind CSS, REST APIs

Authentication & Security: JWT, OTP Verification, Role-Based Access Control, Payment Signature Verification

Payment Integrations: Razorpay, Stripe

Databases: MongoDB, MySQL, SQL Server

Tools & Platforms: Git, GitHub, VS Code, Postman

CERTIFICATIONS

- SQL and Relational Databases 101 — IBM Skills Network, June 2025 — Verify
- Data Analytics Job Simulation — Deloitte (via Forage), December 2025
- Agentic AI Starter Course with Certification, 2025

ACHIEVEMENTS & EXTRACURRICULAR

- Winner, Volleyball — IIST Annual Sports 2024-25 (Institute-level tournament)
- Participant, 2nd Junior & Senior National Pickleball Tournament 2025 — organized by the Pickleball Federation of India
- Participant, Virtual Lab Workshop conducted by IIT Delhi — organized by IIST
- Active Participant, National Science Day 2026 — Indore Institute of Science & Technology
